

## **Division Cover Up**

Materials: game board and number cards

2 or more players

1. Each player will be dealt 7 cards, to be held in their hand so no one else can see them. Choose one game board from the bag.
2. Player one chooses one card to play on the game board to complete a division problem. Number cards should be placed face up on the game board.
3. Play continues to the left as each player takes a turn.
4. If a player cannot make a play, they must discard one of their cards and draw a new card from the pile to end their turn.
5. Play continues until a player plays their final card or the game board is filled.
