

Multiplication Dice Game

Materials: bag of three die

2 players

1. Player 1 rolls the two die that are the same color (black or red). Add those two die together to get a sum.
2. Roll the third die (green) and multiply that number by the sum of the first two die to get a product. Record your answer.
3. Now player 2 follows the same directions to find their product and records their answer.
4. Play continues, by taking turns, for a total of 5 minutes.
5. At the end of 5 minutes, each player adds the total of all their products. The player with the highest total wins.
