

Multiplication War

Materials: Number cards 0-11

Players 2-4

Directions:

1. Shuffle the cards. Place the deck number side down on the playing surface.
2. Each player turns over two cards, multiplies them together, then calls out the product.
3. The player with the highest product wins the round and takes all the cards .
4. In case of a tie for the highest product, each tied player turns over two more cards and call out the product. The player with the highest product then takes all the cards from both plays.
5. The game ends when not enough cards are left for each player to have another turn.
6. The player with the most cards wins.
